Mike Papadakis - Curriculum Vitae, February 2023

Contact Details

Michail Papadakis (Mike Papadakis),
Interdisciplinary Centre for Security, Reliability and Trust (SnT) University of Luxembourg, 29, avenue J.F. Kennedy, L-1855 Luxembourg, Luxembourg.

email: `michail.papadakis@uni.lu`, website: `https://mpapad.github.io/`
phone: `(+352) 4666445672`

Current Position

Associate Professor/Chief Research Scientist, Interdisciplinary Centre for Security, Reliability and Trust (SnT, `http://wwwen.uni.lu/snt`), University of Luxembourg. `Jan 2023 - Present`.
Deputy head of the SERVAL research group, (SerVal, `https://wwwen.uni.lu/snt/research/serval`). `Aug 2020 - Present`.

Previous Positions

Assistant Professor/Senior Research Scientist, Interdisciplinary Centre for Security, Reliability and Trust (SnT, `http://wwwen.uni.lu/snt`), University of Luxembourg. `Aug 2020 - Dec 2022`.
Research Scientist, Faculty of Science, Technology and Communication (FSTC), University of Luxembourg. `Jan 2016 - Aug 2020`.
Visiting Research Scholar, Centre for Research on Evolution, Search and Testing (CREST, `http://crest.cs.ucl.ac.uk/`), University College London (UCL). `Jun 2014 - Dec 2015`.
Research Associate, Interdisciplinary Centre for Security, Reliability and Trust (SnT, `http://wwwen.uni.lu/snt`), University of Luxembourg. `Mar 2012 - Dec 2015`.

Publications (Peer Reviewed)

Journal papers accepted or in print:	**26,**
Refereed conference papers:	**81, (18 Core A*)**
Other refereed publications:	**17**
Total:	**124**

Principal Peer Esteem Indicators

Editorial boards:	**2**
Distinguished (journal) review boards:	**3**
Program chair:	**17**
General chair:	**2**
Steering committee membership:	**4**
Program committee membership:	**84**
Special issue co-editor:	**6**
Keynotes & invited talks:	**7 & 21**
Awards:	**11**
H-index on Google Scholar:	**41** (**5,674 citations**; 2 February, 2023)

Principal Industrial Impact Indicators

My work includes industrial collaborations with Google, Facebook, PayPal, BGL (BNP-Paribas group), CETREL (six company group) and MERCE (Mitsubishi Electric). So far PayPal, Facebook, BGL and CETREL have funded my work with approximately 1, 000, 000 €.

Qualifications

Right to supervise PhD students (ADR - "Autorisation à Diriger des Recherches"), *University of Luxembourg*, 2016. Doctoral Program in Computer Science and Computer Engineering - Doctoral School in Science and Engineering.
Ph.D. in Software Testing and Verification, *Athens University of Economics and Business*, 2006–2011. Thesis title: *Reducing the Effort of Mutation Testing using its Variants while Automating the Test Case Generation Process*.
MSc in Computer Science, *Athens University of Economics and Business*, 2003–2005.
BSc in Computer Science, *Athens University of Economics and Business*, 1999–2003.

Quantitative Evidence for Research Quality

I am an expert in my field with international reputation as indicated by my key peer esteem indicators (e.g., h-index 41, 5,600+ citations, etc). According to recent bibliometric studies[1], conducted in October 2018 and in June 2021, I am among **the most impactful researchers in Software Engineering**. In particular the first study (covers the timeperiod 2010-2017) ranks me among the top-5 most impactful *early stage* researchers in Software Engineering and lists me among the "Top Scholars" in the general category of Software Engineering, while the second study (regards the time period 2013-2020) ranks me among the top-20 most impactful *consolidator stage* researchers in Software Engineering. It is noted that both these studies are peer-reviewed and independent of my work, thereby offering an independent impact indicator of the recognition of my work by the research community.

My work on Mutation Testing is widely recognised, for which I have been awarded the **IEEE TCSE Rising Star Award (2020)**. I have published widely on Software Engineering topics from code analysis to software maintenance and testing and have given 28 invited talks (on various topics). My work has received 11 research awards, including an IEEE TCSE and an ACM-SIGSOFT Distinguished paper awards, at ICSME 2020 and ESEC/FSE 2019, which are among the most prestigious events in Software Engineering. I have also received **2 industry related awards**, a Facebook Research Award, prestigious award given to *"exceptional" academics* to support their research efforts, and a Microsoft Azure Research Award, award given to academics to develop their work on Azure cloud computing platform.

My work has also been published on the main top-tier venues of my area, includes 26 journal papers and 18 regular papers in the main research tracks of ICSE, ESEC/FSE, ASE, AAAI and ECCV, which are CORE A* venues (16 papers in A* Software Engineering venues and 2 papers in A* AI-related venues). I also have a strong reputation as a distinguished researcher and have been invited to participate to 80+ international program committees (including top-tier, Core A*, venues such as ICSE, ESEC/FSE & AAAI, CVPR), elected into 4 international conference steering committees (ICSME, ICST, SSBSE and Mutation), invited to serve on 2 editorial and 3 distinguished review boards (STVR, E-Informatica, ACM-TOSEM, EMSE & JSS). Perhaps more importantly, I serve as a **deputy Editor of the Software Testing, Validation and Verification (STVR) journal**, which is the main journal in Software Testing, and as a **Program Committee co-chair for the International Conference on Software Testing (ICST'23)**, a premier Software Testing conference. I have also co-Organized, among many events and tracks, the 37th IEEE International Conference on Software Maintenance and Evolution (ICSME'21), a premier Software Engineering conference.

I have acquired and led multiple (highly competitive) **industrial, national and international research projects (approximately 10 million Euros of total budget)** in collaboration with world leading companies such as PayPal, BNP Paribas and Mitsubishi Electric, and international institutions such as UC-Berkeley (US), UCL (UK), CEA-List. In total I have collaborated with 20 different institutions and more than 80 different authors across the globe. These facts demonstrate the strong contribution of my work on the development of knowledge and research of Software Engineering.

I am the **deputy head of the SerVal research group (SEcurity, Reasoning and VALidation)**, currently composed of 25 PhD students and 15 Post Doctoral researchers. The team is specialized in a diverse number of topics (Artificial Intelligence, Optimization, Code Analysis, Software Engineering, Smart Grid and others) with a mixed number of industrial and basic research projects with a total budget of more than 20 million Euro. All-in-all, I have successfully supervised 7 PhD students (one of them awarded with the *FNR Outstanding PhD thesis Award 2019* and one awarded with the *University of Luxembourg Excellent Thesis Award 2022*) and currently supervising and co-supervising 12 PhD students. Since January 2016, I am leading the software testing and debugging team of the SerVal group, which is composed of 10 PhD students and 5 PostDocs.

---

CETREL	Cetrel	2011	Co-Inv	200,000 €
TOTAL for which I am Principal Investigator				**6,005,000 €**
TOTAL for which I am Co-Investigator				**3,795,000 €**

Principal Peer Esteem Indicators

Awards & Honours

- **Best Paper Award** (IEEE Reliability Society) at the 21st IEEE International Conference on Software Security and Reliability (QRS) 2021. Paper title: "Confuzzion: A Java Virtual Machine Fuzzer for Type Confusion Vulnerabilities".

- **Facebook Research Award Finalist** at the Facebook 2021 RFP on "agent-based user interaction simulation to find and fix integrity and privacy issues" - Project "Refining state equivalence relations for effective metamorphic testing" `https://research.fb.com/blog/2021/09/announcing-the-winners-of-the-2021-rfp-on-agent-based-user-interaction-simulation-to-find-and-`

- **Most Impactful Software Engineering Researcher**. A bibliometric study by Wong et al. "A bibliometric assessment of software engineering themes, scholars and institutions (2013-2020)", Journal of Systems and Software, June 2021, ranks me among the top-20 "Most Impactful" consolidator stage Software Engineering researchers.

- **IEEE TCSE Rising Star Award**. IEEE Computer Society Technical Council on Software Engineering (TCSE) 2020.

- **Distinguished Paper Award** (IEEE TCSE) at the 36th International Conference on Software Maintenance and Evolution (ICSME'20). Paper title: "Commit-Aware Mutation Testing".

- **Best Paper Award** for the 26th SIGKDD conference on Knowledge Discovery and Data Mining, (KDD'20), AI for COVID track. Paper title: "Data-driven Simulation and Optimization for Covid-19 Exit Strategies".

- **Facebook Research Award** at the Facebook Testing and Verification 2019 - Project "Detecting flaky test failures of system user interactive tests".

- **Distinguished Paper Award** (ACM SIGSOFT) at the 27th ACM Joint European Software Engineering Conference and Symposium on the Foundations of Software Engineering (ESEC/FSE'19). Paper title: "An Empirical Study on Vulnerability Prediction of Open-Source Software Releases".

- **Distinguished Artifact Award** (ACM SIGSOFT) at the 28th ACM International Symposium on Software Testing and Analysis (ISSTA'19). Paper title: "Semantic Fuzzing with Zest".

- **Distinguished Artifact Award** (ACM SIGSOFT) at the 28th ACM International Symposium on Software Testing and Analysis (ISSTA'19). Paper title: "Search-based Test and Improvement of Machine-Learning-Based Anomaly Detection Systems".

- **Distinguished Reviewer Award** at the 12th IEEE International Conference on Software Testing (ICST'19).

- **Top Scholar in Software Engineering** a bibliometric study (Karanatsiou et al. Journal of Systems and Software, October 2018), ranks me among the "Top Scholars" in Software Engineering and among the top-5 most impactful early stage researchers.

- **Best Paper Award** at the 16th IEEE International Working Conference on Source Code Analysis and Manipulation (SCAM'16). Paper title: "Analysing and Comparing the Effectiveness of Mutation Testing Tools: A Manual Study".

- **Microsoft Azure Research Award**. Microsoft Azure 2015 - Project "Mutation-Based Testing and Debugging in Microsoft Azure".

- **Honor (performance) Scholarship**, MSc in Computer Science (2003 - 2004).

Keynotes

- 13th International Workshop on Automating Test Case Design, Selection and Evaluation (A-TEST), "Mutation Testing in Evolving Systems", 18th November 2022, Singapore. `https://a-test.org/#Keynotes`.

- 6th International Workshop on Machine Learning Techniques for Software Quality Evolution, "Best practices in the (empirical) assessment of deep learning testing methods", 18th November 2022, Singapore. `https://maltesque2022.github.io/index.html`.

- 12th BElgian-NEtherlands software eVOLution symposium (BENEVOL'22). Keynote talk, title "Applying Mutation Testing in Evolving Systems", 12-13 September, 2022, `https://benevol2022.github.io/`.

- 3rd ACNS Workshop on Security in Machine Learning and its Applications (SiMLA 2021), "Adversarial Attacks in ML-Enabled Systems", 21-24 June 2021 - Kamakura, Japan. `https://asset-group.github.io/simla2021/`.

- Mutation Testing workshop (MUTATION 2020): Keynote talk, title "Continuous Mutation Testing", October 24th, 2020, `https://mutation-workshop.github.io/2020/`.

- Methodes de Test pour la Verification et la Validation (MTV2) workshop (annual workshop of the CNRS research group): Keynote talk, title "Mutation Testing Advances", December 7th, 2018, `http://logimas.mics.centralesupelec.fr/events/mtv2-7-12-2018/`.

- BElgian-NEtherlands software eVOLution symposium (BENEVOL'17). Keynote talk, title "Mutation Testing Advances", 4th and 5th December, 2017, `http://ansymore.uantwerpen.be/events/benevol2017`.

Invited Talks & Seminars

- Training And Research On Testing, Summer School on software testing (TAROT 2022). Invited talk, "Mutation Testing Advances and Future Research Directions", 4-8 July 2022 - Avila, Spain.

- CEA-LIST, Invited talk, "MuDelta: Delta-Oriented Mutation Testing at Commit Time", December 16, 2021, Paris, France.

- TUM Technical University of Munich, Invited talk, "Catching bugs with Mutation Testing" December 13th, 2021, (Remote talk) Munich, Germany.

- University of Bern, Invited talk, "Catching bugs with Mutation Testing" March 22, 2021, (Remote talk) Bern, Switzerland.

- NUAA-International Workshop on Software Reliability (NUAA-IWSR) "Mutation Testing Advances", August 13, 2020, (Remote talk) Nanjing, China `https://mp.weixin.qq.com/s/syVfld9g_2onQfqQNyCsIw`.

- Facebook chalk talk (Facebook London) "Catching Bugs with Mutation Testing", November 22, 2019.

- Facebook Testing and Verification Symposium 2019 (Facebook London) "Mutation Testing", November 21, 2019. `https://fbtavsymposium2019.splashthat.com/`

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "Applications of Deep Learning Adversarial data", 21st and 22nd October 2019, `http://crest.cs.ucl.ac.uk/cow/61/`.

- Doctoral Symposium of 12th IEEE International Conference on Software Testing, (ICST), April 24, 2019. Title "Successful' PhD Studies in Software Engineering", 24 April 2019. `http://icst2019.xjtu.edu.cn/Calls/Doctoral_Symposium.htm`

- TCS Seminar Series, Department of Theoretical Computer Science, KTH Royal Institute of Technology in Stockholm (KTH): Invited talk, title "Mutation Testing Advances", 11th December 2018, `https://www.kth.se/tcs/seminars-events/tcs-seminars`

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "Mutation Testing and Automated Program Improvement", 26th and 27th February 2018, http://crest.cs.ucl.ac.uk/cow/58/.

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "The mutant selection problem", 29th and 30th January 2018, http://crest.cs.ucl.ac.uk/cow/57/.

- Training And Research On Testing, Summer School on software testing (TAROT 2017). Invited talk, "Advances in Mutation Testing", June 26 -30 2017, http://tarot2017.dieti.unina.it/index.php/preliminary-program.

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "Vulnerability Prediction Models", 27th and 28th March 2017, http://crest.cs.ucl.ac.uk/cow/52/.

- School of Computing, Korea Advanced Institute of Science and Technology (KAIST): Invited talk, title "Recent Advances in Mutation Testing", 20th, 21st March 2017.

- Computer Science department, University of Sheffield: seminar talk title "Mutation Testing and the Equivalent Mutant Problem", February 10th 2015.

- Software Systems Engineering Reading Group Talk, University College London (UCL): Invited talk, title "Bypassing the Combinatorial Explosion: Using Similarity to Generate and Prioritize T-Wise Test Configurations for Software Product Lines", 23rd July 2014, http://sse.cs.ucl.ac.uk/reading_group/.

- Software Engineering Seminar, George Mason University: Invited talk, talk title "Using Mutants to Detect and Locate Bugs" 23rd April 2012, http://cs.gmu.edu/~smalek/seminar.html.

- Research Seminar, University of Luxembourg, Interdisciplinary Centre for Security, Reliability and Trust (SnT): Invited talk, title "Automating the Generation of Mutation Tests", 4th October 2011, http://158.64.76.45/universite/actualites/evenements/snt_research_seminar_automating_the_generation_of_mutation_tests2

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "Search Based Mutation Testing", 12th May 2011, http://crest.cs.ucl.ac.uk/?id=3324.

- CREST Open Workshop (COW), Department of Computer Science, University College London (UCL): Invited talk, title "Automating the Generation of Mutation Tests", 27th October 2010, http://crest.cs.ucl.ac.uk/cow/8/.

Guest Lectures

- Guest lecture at University of Namur. Title "Software Testing with Mutation Analysis", April 27th, 2022.

- Guest lecture at University of Namur. Title "Software Testing with Mutation Analysis", May 5th, 2021.

- Guest lecture at University of Namur. Title "Software Testing with Mutation Analysis", April 1st, 2020.

- Guest lecture at Technische Universität Darmstadt. Title "Catching bugs with mutation testing", June 11th, 2019.

Organizing Committee Member:
- 46th ACM/IEEE International Conference on Software Engineering (ICSE 2024)

- 16th IEEE International Conference on Software Testing, (ICST 2023).

- 38th IEEE International Conference on Software Maintenance and Evolution (ICSME 2022).

- 22nd IEEE International Working Conference on Source Code Analysis and Manipulation (SCAM 2022).

- 15th IEEE International Conference on Software Testing, (ICST 2022).

- Joint European Software Engineering Conference and Symposium on the Foundations of Software Engineering (ESEC/FSE 2021).

- International Symposium on Software Testing and Analysis, (ISSTA 2021).

- 37th IEEE International Conference on Software Maintenance and Evolution (ICSME 2021).

- Publication Co-Chair in the 14th International Conference on Software Testing, (ICST 2021).

- Journal-first Co-Chair in the 42nd International Conference on Software Engineering (ICSE 2020).

- Challenge Track Co-Chair in the 11th Symposium on Search-Based Software Engineering, (SSBSE 2019).

- Workshop Co-Chair in the 11th International Conference on Software Testing, (ICST 2018). (`http://www.es.mdh.se/icst2018/`).

Teaching & Seminars

Teaching

- 2022-2023 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2022-2023 Independent teaching. Course (University of Luxembourg) for "Testing and Validation" (Graduate - MICS-43).

- 2022-2023 Independent teaching. Course (University of Luxembourg) for "Machine learning" (Graduate - Space master)

- 2022-2023 Independent teaching. Course (University of Luxembourg) for "Advanced topics in applied Machine Learning" (Graduate - Master of Data Science)

- 2021-2022 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2021-2022 Independent teaching. Course (University of Luxembourg) for "Testing and Validation" (Graduate - MICS-43).

- 2020-2021 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2020-2021 Independent teaching. Course (University of Luxembourg) for "Testing and Validation" (Graduate - MICS-43).

- 2019-2020 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2018-2019 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2017-2018 Independent teaching. Course (University of Luxembourg) for "Software Testing" (Undergraduate - BPINFOR_FCE-13).

- 2017-2018 Independent teaching. Course (University of Luxembourg) for "Software Testing and Validation" (Undergraduate - BPINFOR-35).

- 2017-2018 Independent teaching. Course (University of Luxembourg) for "Testing and Validation" (Graduate - MICS-43).

- 2016-2017 Independent teaching. Course (University of Luxembourg) for "Programming 3" (Undergraduate - BPINFOR-85).

- 2014-2015, 2013-2014, 2012-2013 Partial teaching (2 lectures), course (University of Luxembourg) for "Testing and Validation" (Graduate).

- 2016-2017, 2014-2015, 2013-2014, 2012-2013 Partial teaching (2 lectures), course (University of Luxembourg) for "Empirical Software Engineering" (Graduate).

- 2010-2011, 2009-2010, 2008-2009, 2007-2008, 2006-2007 Teaching assistant, (department of informatics at the Athens University of Economics and Business) for "Software Engineering" (1 undergraduate course and 1 graduate course). Assisting with the course projects and lessons.

- 2010-2011, 2009-2010, 2008-2009, 2007-2008, 2006-2007 Teaching assistant, (department of informatics at the Athens University of Economics and Business) for "Software Testing Verification and Reliability" (1 undergraduate course and 1 graduate course). Assisting with the course projects and lessons.

Seminar

- 2022-2023 Serval Reading Group in Software Engineering, Weakly Graduate seminar (University of Luxembourg).

- Academic Career Progression - 1st Greater Region Software Engineering Research Days (SOFTER 2021), November 9, 2021.

- 2021-2022 Serval Reading Group in Software Engineering, Weakly Graduate seminar (University of Luxembourg).

- 2020-2021 Serval Reading Group in Software Engineering, Weakly Graduate seminar (University of Luxembourg).

- 2019-2020 Serval Reading Group in Software Engineering, Weakly Graduate seminar (University of Luxembourg).

Open Source Tools

GraphCode2Vec Generic Code Embedding via Lexical and Program Dependence Analyses: A tool that forms generic and precise code embeddings. `https://github.com/graphcode2vec/graphcode2vec`

FlakiMe: A tool simulating test flakiness; it injects test flakiness in JUnit test suites. `https://github.com/serval-uni-lu/flakime`

µBERT: A mutation testing tool that uses CodeBERT, a pre-trained language model, to generate mutants. `https://github.com/rdegiovanni/mBERT`

COVID-19 Adaptive Exit Strategies simulator: A tool that simulates the impact of different confinement measures on the spread of COVID-19 virus. `https://serval-snt.github.io/covid19/`

Mart: A mutation testing tool for LLVM. `https://github.com/thierry-tct/mart`

KLEE-SEMu: A mutation-driven test generation tool. It uses dynamic symbolic execution to analyse mutants and generates related test cases. `https://github.com/thierry-tct/KLEE-SEMu`

FeatureNET: A diversity-driven tool that generates deep learning model architectures. `https://github.com/yamizi/FeatureNet`

Ukwikora: A tool that continuous monitoring the robot framework test suites. `https://github.com/kabinja/ukwikora-inspector`

VulData7: An automated framework for collecting Security Vulnerabilities from software archives. VulData7 is automated, flexible and easily extensible. `https://github.com/electricalwind/data7`

Mutation Testing Repository: Is a comprehensive collection and analysis of Mutation Testing literature. The repository includes and categorizes more than 800 scientific papers and 100 tool papers. `https://mutationtesting.uni.lu/`

PiTest++: A Practical Mutation Testing Tool for Java (updated version that supports research operators). `https://github.com/LaurentTho3/ExtendedPitest/` (integrated on the main branch of PiTest project)

EFLBench: Eclipse Feature Location Benchmark for Software Families. `https://github.com/but4reuse/but4reuse/wiki/Benchmarks`

MutaLog: Tool for Mutating Logic Formulas. `https://research.henard.net/SPL/MutaLog/`

PLEDGE: A product line editor and test generation tool. `https://research.henard.net/SPL/PLEDGE/`
